i18n (Nuxt / Vue / React i18n) · SEO ·  
Open Graph · SSR

### Backend & APIs

Node.js · Express.js · REST APIs · Redis ·  
Strapi · Nginx

### Build & Tooling

Vite · Webpack · npm · pnpm · yarn

### Tools & Workflow

Git · Bitbucket · Figma · Postman · Linux  
CLI · VS Code · Jira · Slack · AI

### Testing

Jest · Testing Library

## LANGUAGES

### English — Intermediate (B1–B2)

Strong reading & writing, speaking in progress

### Ukrainian — Native

### russian — Native

## SUMMARY

Frontend & Web Developer with 7+ years of experience building modern, scalable web applications and product interfaces.

Strong focus on Vue/Nuxt ecosystems, UI architecture, internationalization (i18n), and performance-oriented development.

Proven track record of delivering production-ready solutions — from early-stage startups to long-term products.

Looking for a remote role where I can contribute to real business value and grow as a product-focused engineer.

## PROFESSIONAL EXPERIENCE

### Umlaut.Digital® — Frontend / Web Developer

04/2025 – 12/2025 | Remote

**Project:** Corporate Website & Client Demos

- Built a high-performance, multilingual corporate website with Nuxt 3 and i18n, designed for scalability and long-term maintainability
- Proposed and implemented a cost-effective VPS + NGINX deployment strategy, aligned with project constraints, ensuring production stability and fast load times
- Implemented a Strapi-based CMS, enabling non-technical teams to manage localized content independently
- Delivered client-specific demo versions under tight deadlines, supporting sales presentations and pre-contract negotiations

**Tech Stack:** Nuxt 3, Vue 3, TypeScript, i18n, Strapi, Tailwind CSS, NGINX, Node.js, Express.js

### INear LLC — Frontend Developer (Project Work)

12/2024 – 04/2025 | Remote

**Project:** Healthcare startup | CRM System

- Developed a secure CRM system with authentication, data validation, and REST API integration
- Built a media gallery with metadata editing, file upload, download, and deletion workflows
- Proposed and implemented a media file sharing solution, defining API endpoints with a backend engineer for seamless access across web, desktop (Windows), and native mobile apps (iOS & Android)
- Implemented an interactive cost comparison calculator to support business decision-making

**Tech Stack:** Nuxt 3, Vue 3, Pinia, React, TypeScript, Tailwind CSS, Framer

### Viboprod — Web Developer (Project Work)

03/2024 – 11/2024 | Remote

**Project:** E-commerce Online shop

- Took ownership of a broken production e-commerce system and restored it to a stable, working state
- Rebuilt a custom WordPress theme and recovered core store functionality to resume business operations
- Reconfigured admin workflows for reliable day-to-day management
- Handled hosting and domain setup to ensure a clean and maintainable production environment

**Tech Stack:** JavaScript, HTML, CSS, PHP, WordPress, WooCommerce, XAMPP, Kinsta

## **Getta Software – Frontend / Web Developer**

10/2020 – 12/2023 | Office/Remote

**Projects:** Media Portal (eSports & Gaming) | Custom CRM | Crypto Payment Widget

- Built a reusable UI component system, accelerating feature development across products
- Implemented full i18n localization and complex form validation flows for multilingual platforms
- Integrated frontend with REST APIs and Twitch API for dynamic, data-driven features
- Developed dynamic sitemap generation, improving SEO visibility and indexation
- Proposed and delivered UX improvements, streamlining workflows for content managers
- Integrated Redis-based communication between CRM instances, improving performance and data synchronization
- Designed frontend architecture from scratch for a crypto payment widget using React and Webpack

**Tech Stack:** Nuxt.js, Vue.js, Vuex, React, JavaScript, SCSS, Vuetify, i18n, REST API, Express.js, Redis

## **Freelance – Web Developer**

06/2018 – 10/2020 | Remote

**Projects:** Automation tools, websites, interactive maps

- Built automation tools for social media platforms using Node.js (auto-posting, scraping workflows)
- Improved existing websites with semantic HTML, accessibility fixes, and performance optimizations
- Integrated interactive maps and geodata visualizations using Leaflet.js
- Worked directly with clients: requirements clarification, delivery, and support

**Tech Stack:** JavaScript, HTML, CSS, React, Redux, Node.js, Leaflet.js, Nightmare.js, WordPress

## **EDUCATION**

---

### **National Technical University “Kharkiv Polytechnic Institute”**

Economics & Marketing

1999 – 2003 | Kharkiv, Ukraine
